Instruction Steps

Adobe After Effects CC 14.x (software) or newer version required to open and edit the template file.

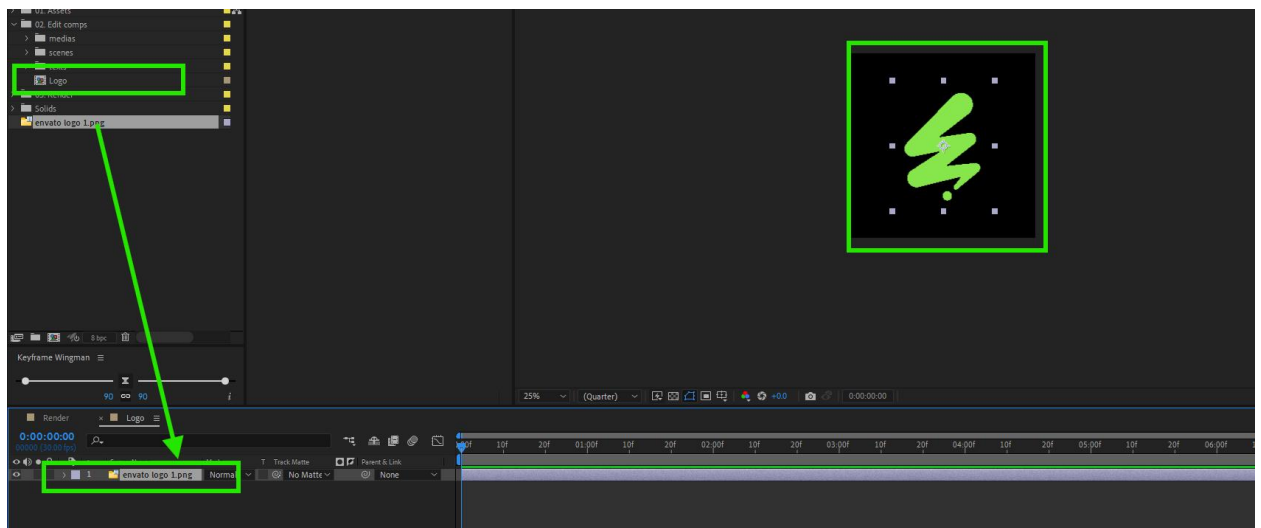

First download font and install

-----Here are a few instructions that will help -----

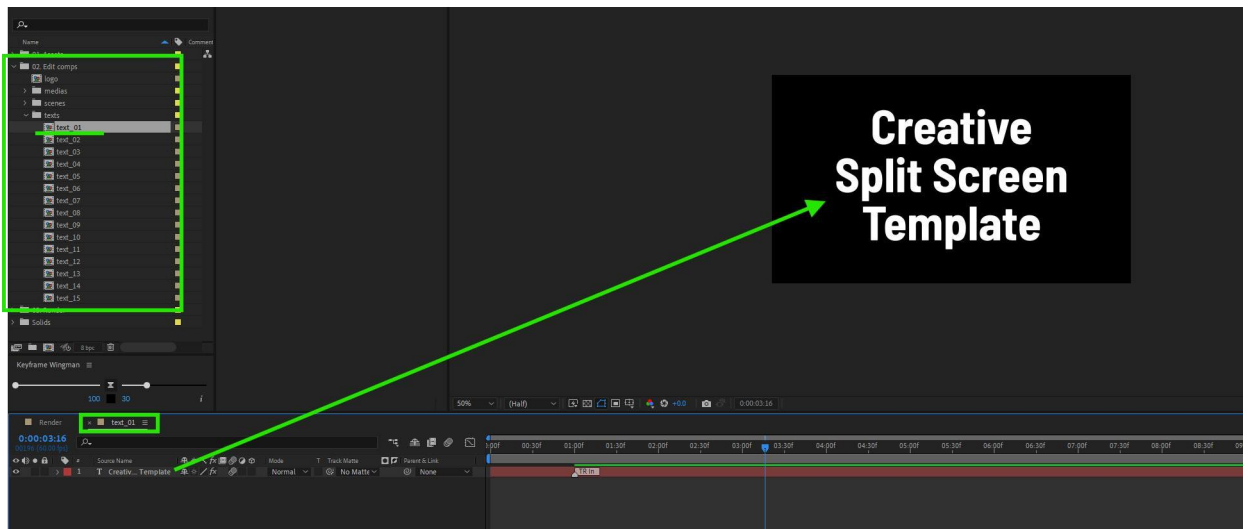

Folder "02. Edit Comps" You can edit text and media for your project .

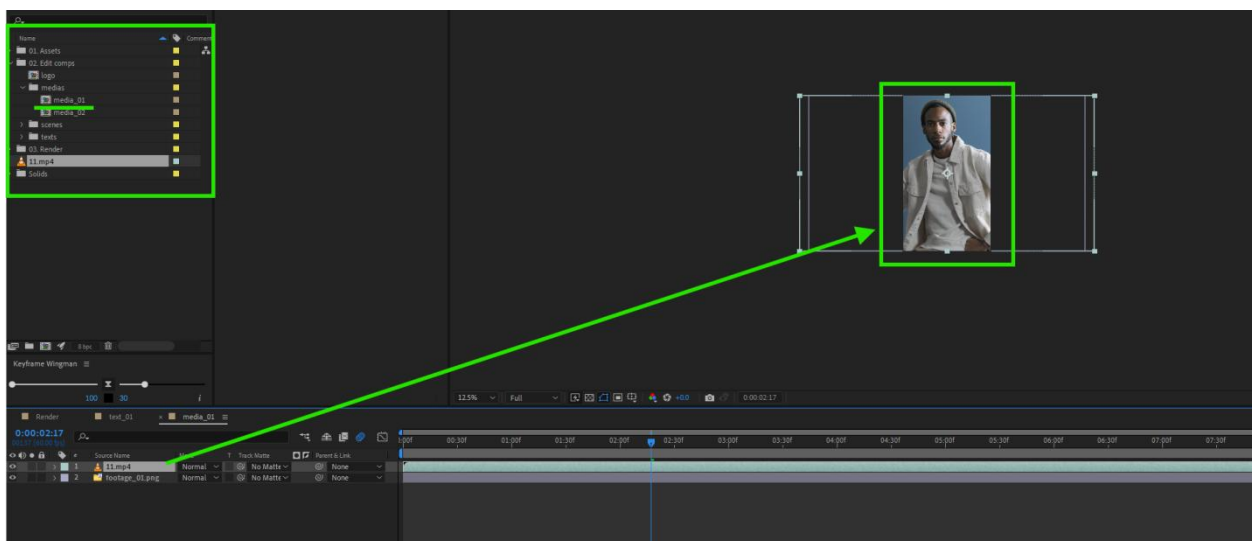

In this folder you will see some folders named "**medias**", "**scenes**" and "**texts**" and one "**logo**" composition! Open "**logo**" composition and drag and drop your logo on the timeline!

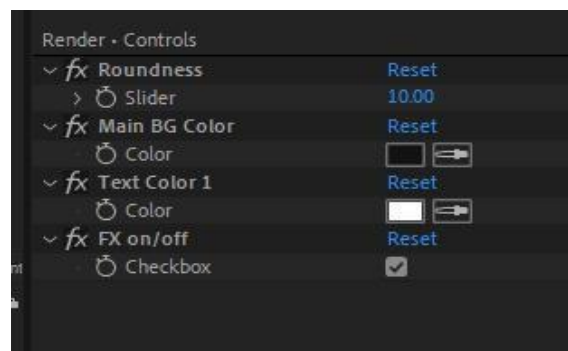

Then open the **"texts"** folder, and open the composition **"text_##"** and write your own texts!

Then open **"medias"** folder, and open the **"media_##"** composition and drag and drop your media on the timeline!

Open "Render" composition. Select "Controls" layer.
And change colors and properties as you like.

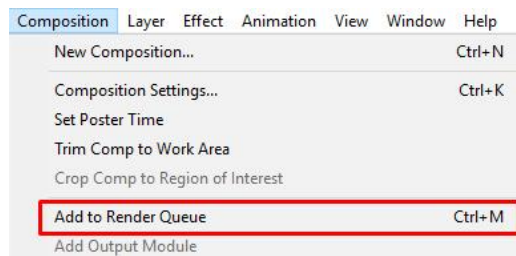

AUDIO

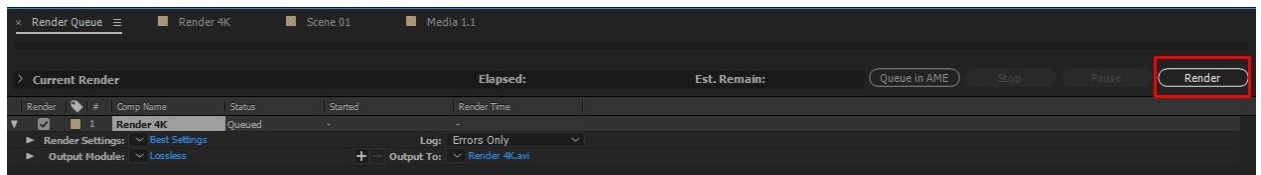

In After Effects click on the menu option: File > Import > File (search the audio file, click on it, then click Open). Open the "03. Render" folder. Open the composition "Render". Drag and drop your audio in this composition.

RENDER VIDEO

Open "Render" composition. click on the menu option Composition > Add to render queue

Select the desired output format and the video location. Click on Render option.
